

Nature Hunt

Have you got what it takes to become a backyard biologist? Biologists watch the behaviour of all kinds of living things & then write about them. To get started explore your garden & see if you can find the following living things.

tick box if found
difficulty rating

Make notes - Where did you find it? When did you see it? What colour was it? What size was it? What was it doing? Do you know what species it is? Find out some facts about it by researching it in a book or online.

1. a centipied

7

2. a ladybird

4

3. a bird

2

4. a bee

4

5. a butterfly

5
